VIEW OF HARTFORD.

WHAT A QUONDAM RESIDENT SAW ON HIS RETURN.

Big Business Houses, Enterprising Citizens and Everything on the Quick Move.

SKETCH OF OHIO COUNTY'S CAPITAL.

Business called me to Hartford after an absence of several months and I noticed such a vast improvement that I jotted down a few of my impressions. In the suburbs of your pretty town stands Oakwood Cemetery, that silent city of the dead, the last resting place of so many of Hartford's former residents. Here repose the remains of the late lamented Dr. Peniston, one of the most noted surgeons of his day. His fame extended over the entire country and he died loved and respected by all. A new picket fence painted white surrounds the cemetery, adding a fresh beauty to the hallowed spot.

Passing the new residence of Mrs. Wedding I reached the Hartford Flouring Mill, familiarly termed the old Water Mill. Times have changed, for although the lovers, hand in hand, still stroll for their evening's walk to the historic spot as in days of yore, the mill itself has undergone a wonderful change. Messrs. J. W. Ford and J. B. Phipps, the proprietors, are fully alive to competition and have at a great expense introduced the latest improved machinery. They are here, energetic men, and their aim is to place the best goods upon the market. Their grades of flour equal if not surpass the best mill in the State. The business is in a flourishing condition and they bid fair to surpass all competitors.

That great institution of learning, Hartford College, keeps up its former reputation and everything looks bright and attractive around it. A handsome new residence just completed stands at the corner of Union street just across the road. The comfortable home of J. W. Ford is undergoing a complete transformation.

At the corner of Market street, where once stood an unsightly structure, Messrs. Thomas Bros. have built a palatial business house that reflects the highest praise upon those progressive business men. For a moment I lingered myself in a large city and half expected to hear the hum of the coming electric car. At that moment a familiar voice sounded on my ear and turning I felt the friendly grasp of that faithful Christian gentleman, Rev. G. J. Bean. Who does not know Bro. Bean? Never too busy to give a helping hand or speak a cheering word—grand old man, loved and loved.

As I write these closing lines, soft strains of music, blended with a sweet feminine voice, reach my ear and in fancy I catch the scene of a happy home, where the tired father or brother can find peace and rest after his day's toil. The writer has traveled over many lands and sailed over many seas and there is no town on earth where the ladies take a deeper interest in the deserving or dispense sweeter charity to the needy.

"Kind hearts are more than coronets
And simple faith than Norman blood."

Kentucky Mountain Romance.

PURCHASING, Ky., Oct. 12.—A remarkable romance in the life and endowment of Private Joseph Collinsworth, of the Thirtieth United States Infantry, has just come to light. At the beginning of the war with Spain, Collinsworth was a young married man, living alone with his wife on his little mountain farm in Pike county. At first he had no thoughts of enlisting, but a quarrel with his young spouse changed him in that respect, and he posted off to join Uncle Sam's regulars.

He was with his regiment in Cuba, and one day news came to his wife that he had been killed by Santiago. The report was unquestioned, and a month later Mrs. Collinsworth was again to the altar by a neighboring farmer named Smith.

They lived in perfect bliss for a while, but one day Collinsworth turned up alive, on sick leave from Camp Wikif, and their dream of felicity was destroyed. Upon seeing her lawful husband, whom she thought to be in a Cuban grave, Mrs. Collinsworth's affections had a reaction, and again her heart turned toward her first love.

Collinsworth was newly smitten by his wife's charms, and before he returned to his post of duty they were completely reconciled.

Smith was at first almost heartbroken, but now he has become reconciled to the inevitable.

The Ghost of an Indian War.

There appears to be a chance for a conflict between a little force of United States soldiers and a few hundred "blanket" Indians in Minnesota. The trouble grew out of a dispute in regard

A BLOODY BATTLE.

NINE MEN SHOT TO DEATH AND MANY WOUNDED.

Awful Fight Between Striking Union Miners and Negro Miners Imported from the South.

ONE MAN'S THRILLING EXPERIENCE.

YRDEN, ILL., Oct. 12.—The little town of Yrden is comparatively quiet to-night after a day of riot and bloodshed—the long-expected clash between the union miners and imported negroes. At 12:40 o'clock this afternoon a Chicago and Alton special train, bearing 300 negro miners from the South, arrived at a stockade around the Chicago-Yrden Coal Company's mines, and immediately a terrific firing began. The list at 10 o'clock to-night stands, eight dead and twenty-six wounded here and one dead and fourteen wounded at Springfield.

For the past two weeks rumors have reached Yrden daily that a train having negroes from Alabama would reach the city, and the Chicago and Alton depot has been surrounded day and night by vigilant miners, determined awaiting their arrival.

REIGNING OF THE BATTLE.
To-day the Chicago and Alton limited, due to pass here at 10 o'clock, shot through en route to Chicago an hour later, displaying flags on the rear indicating that a special was following. Immediately the word was spread and a dense crowd of miners lined the station platform, while another crowd collected at the entrance of the stockade, half a mile north of the station. D. B. Kiley, a Chicago and Alton detective, stood guard at a switch at the south end of the station platform to see it was not tampered with. At 12:40 the special train passed the station and signal shots were fired from the south end of the train announcing the special's arrival. Immediately shots were fired from the moving train and outside the battle was on.

A few moments after the train had passed the switch where Kiley was stationed, and while he was talking with two citizens he threw up his arms and dropped dead with a bullet through his brain. He was the first man killed. The train continued to the stockade, the miners firing into it all along the route, and the negro passengers retreating the stockade.

Our Naval Casualties.

WASHINGTON, Oct. 12.—Seven sailors killed and eighty-four casualties, all told, was the total loss suffered by the United States navy during the war. The figures have just been compiled at the Navy Department. In Dewey's great fight in Manila Bay not a man was killed and every one of the nine men wounded returned to duty. In the battle of July 3 off Santiago, one man was killed and there were eleven wounded, all returning to duty. In the attack upon the forts at the entrance to Santiago, June 22, one sailor was killed and eleven wounded, of whom only seven were able to return to duty. The heaviest loss of the navy was at Guantanamo. There were twenty-two casualties in that one hundred-hour fight, and of the list, six marines were killed. Of the wounded, nine returned to duty.

In the battle with the forts and gunboats off Cienfuegos the list aggregated eleven wounded and two killed. One man continued under treatment. The three battles between the torpedo boat Winslow and revenue cutter Itasca and the Spanish lead batteries and artillery forces at Cardenas resulted in five deaths. The wounded afterward returned to duty. In the bombardment of San Juan the casualties numbered eight, with one man killed. One of the wounded men was invalided home, while six returned to duty.

There were four other casualties occurring in many separate engagements and that completes the list of naval losses. Of the sixty-seven wounded in the war, fifty-four were returned to duty, one died of wounds, six were invalided from the service and six continue under treatment. Considering results obtained this list is said to be the most remarkable in the naval history of the world.

Treatment of Anarchists.

France, Switzerland and Italy are said to have determined to arrest all the known anarchists to be found within their borders. It ought to be possible to smoke them out in every civilized country, and all should unite in the task. Every one of them is at least guilty of the crime of conspiracy to murder, and the existence of any such society is a standing menace to the loyal, the industrious, the good and the true of every community. Upon their own confessions of intent and purposes it is plain that they are not fit to live among civilized people, and they should be banished, one and all, to some part of the earth where they would never again have the opportunity to practice their devilry upon any but themselves.
